

Claim 9. (new) The photograph and card display device of claim 7 in which the mounting members and pivot pins are dimensioned to provide for independent removal and replacement of the mounting members by first inserting the upper pivot pin into the opening in the top mounting plate and then dropping the lower pivot pin into the corresponding opening in the bottom mounting plate, removal of a mounting member being accomplished by raising the mounting member to disengage the lower pivot pin.

**Remarks**

Claims 1-5 were the claims under final rejection in the parent application, and new Claims 6-9 are substituted for these claims.

Further and favorable action in this application is requested.

Respectfully submitted,

JAMES MULLER
